DETAILED ACTION

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 8/24/2004 has been entered.

Priority

This application claims benefit for domestic priority under 35 U.S.C. § 119(e) [to a provisional application 60/169,856 12/09/1999], is acknowledged.

Status of Claims

Claims 1, 15, 36, and 37 are pending in the application.

Receipt is acknowledged of amendment / response filed on August 26, 2004 and that has been entered. Claims 1 and 15 have been amended. Claims 2-14 and 16-35 were canceled previously. Claims 36 and 37 have been added.

Applicant's arguments and amendments are persuasive with respect to the rejection of claims 1 and 15 under 35 U.S.C. §103(a). The rejection has been withdrawn. However, upon further consideration, the following new ground of rejection is made.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 36 and 37 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The claims contain the subject matter of " C_{\max} greater than the C_{\max} of crystalline celecoxib" or "AUC greater than the AUC of crystalline celecoxib" among others. This subject matter is considered new matter since the specification and the originally filed claims excluded this subject matter as can be seen by original claims 1-35 and the specification on page 29, lines 5-27 as Applicant indicated. This rejection can be overcome by deleting the new matter from the instant claims and also amend the claims with in the context and scope of the claims in order to overcome the rejection.
